DOVER FASTRACK- PUBLIC INFORMATION NOTICE A2 CLOSURE

Between,

Friday 14th July, 9pm
and
Monday 17th July, 5am.

The A2 will be closed between the Whitfield roundabout and the A256 Whitfield interchange. This is to allow the safe installation of bridge beams over the A2.

Contractors working on behalf of Colas will use a 150-tonne crane to lift 5, 30-metre-long beams, weighing 14.5 tonnes each onto the bridge abutments that have been built on either side of the A2. Temporary scaffolding and netting will also be installed to the beams to allow for the subsequent completion of the bridge deck.

The bridge lift is an important milestone for the Dover Fastrack project which will provide a new bus service. It will be Dover's first zero emission bus route providing a frequent and reliable service linking new developments in Whitfield with the town centre and Dover Priory Station.

During the A2 carriageway closure, there will be a clearly signed diversion to direct traffic via the White Cliffs Business Park and Honeywood Parkway.
